

Letter from the President

Prospective Members

We the Tennessee Society of Healthcare Social Workers (also known as TSHCSW) send a warm welcome to you. If you are a returning member, welcome back. We have missed having you and your contributions to the Society. If you are a new prospective member welcome to a new and rewarding experience. The TSHCSW is a State Society with four active local councils. The Mid-Cumberland, Mid-East, Northwest and the Southeast Area are part of the Tennessee State Society.

Each local council offers educational programs for advancement of healthcare social workers. Our goal is to network with others in our field and promote the improvement and extension of adequate health service for all persons and to advance the development of effective social work administration and practice in health care settings.

Whatever your healthcare related field, this is the Social Work Society for you. As part of this team you too will have an active role in promoting our Code of Ethics and leading others to follow the Mission of our Society. Welcome to the Tennessee Society of Healthcare Social Workers! Your support and commitment is needed and appreciated.
